Table 1. Testing and Development Requirements

Type of Testing	Anticipated Result	Implementation and Actual Result
Type I Testing		
I-1. A to B without obstacle code name: AB-no	Shortest straight path	
I-2. A to B and B to C without obstacle code name: ABC-no	Shortest straight path	
I-3 A2B, B2C, ..., e.g., A2Z without obstacle code name: AZ-no	Shortest straight path	
Type II Testing		
II-1. A to B with one obstacle code name: AB-o	Shortest arch path	
II-2. A to B and B to C with one obstacle code name: ABC-o	Shortest arch path	
II-3 A2B, B2C, ..., e.g., A2Z with one obstacle code name: AZ-o	Shortest arch path	
Type III testing		
III-1. A to B with multiple obstacles code name: AB-mo	Shortest arch path	
III-2. A to B and B to C with multiple obstacles code name: AC-mo	Shortest arch path	
III-3 A2B, B2C, ..., e.g., A2Z with multiple obstacles: code name: AZ-mo	Shortest arch path
